

The Adria

The Adria is perfect for those who enjoy single-level living in a traditional family home but don't want to compromise on space and comfort.

The floorplan offers four bedrooms. For added privacy, the master suite is located at the front of the home and features a large walk-in robe and ensuite with twin vanities. While there are three more bedrooms in a separate wing at the rear of the home. Each room has a built-in robe and is serviced by the main bathroom with bath and separate toilet.

With the Adria, you don't have to sacrifice space with a single-level floorplan. There are multiple living spaces including the formal lounge at the front of the home that could easily be used as a media room, home office or playroom for the kids.

The home chef is sure to love the galley-style kitchen with island bench, large walk-in pantry and plenty of bench and storage space to help make cooking family meals a breeze. The kitchen looks out to the open-plan living and dining space where stacker doors open out to a covered alfresco area.

A double car garage with built-in storage, a separate laundry with external access and a great façade offering excellent curb appeal completes the floorplan for the Adria.
