

The Seville

Welcome to the Seville, a sprawling home that offers space and comfort perfect for a growing family or those who enjoy hosting guests.

There are five bedrooms throughout the floorplan, including a guest suite with built-in robe on the lower-level that could easily be used as a home office, depending on your needs.

There are three more bedrooms with built-in robes on the upper level, plus the expansive master suite with an extra-large walk-through robe, beautiful ensuite with spa bath and access to a spacious private balcony. The main bathroom with bath, a sitting nook and balcony complete the upper-level.

The main living spaces are located downstairs including the formal lounge room at the front of the home that could also be used as a home office or a media room depending on your needs.

For the home chef, the oversized kitchen is designed to be the hub of the home with a large island bench the whole family can gather around, plus a massive walk-in pantry and extra bench and storage space.

The kitchen looks out over the family room and the dining space, both of which feature stacker doors that open out to a covered alfresco area creating seamless indoor/outdoor living. Entertain friends, enjoy sunset cocktails or an intimate family dinner; the alfresco space is sure to become a favourite place to gather the family.

A double car garage, extra built-in storage, a large laundry and powder room complete this level and the expansive floorplan of the Seville.
